

READ MY NAILS

Partner program for nail-printer distributors

The printer prints. We give the salon something worth printing.

Read My Nails is a licensed library of nail-art **sets** — five nails that spell a phrase — plus the kiosk app, generator and public catalog that let a salon sell them. Every printer you sell is a salon that needs a menu. Put ours in the box and earn on every subscription.

WHAT YOU GET

1. **20% of every subscription payment** from salons who join through your link, for the first 12 months of each salon. Paid monthly. No cap, no minimum.
2. **The founding rate for your buyers.** Code **FOUNDING** at checkout puts the Salon plan at **\$39/mo for life** (normally \$59) while the first 25 founding salons last.
3. **A "where to buy" box in our Nail Printer Buyer's Guide** — the page built to rank for "nail printer" searches — with your link and contact, above the model comparison.
4. **Your printers by name in the generator.** "Export for O'2NAILS X11 Plus" — tiles come out in your machine's size, resolution and file format, confirmed with your spec, so your customer's first print works.
5. **A free Salon license for your showroom.** Your demo unit runs the kiosk app and the full library, so the printer sells with a menu on the screen.
6. **The sample kit.** Three free sets, a price board and a one-page "how it works" your customers can print the day the machine arrives. Ship it in the box or send it in a DM.

WHAT WE ASK

- Put the card (or the link) in every printer you ship.
- One email to the salons that already own your printers.
- Ten minutes to confirm your printer's file spec — tile size, DPI, color mode, transparency — so the export profile is right the first time.

WHY A SALON PAYS FOR IT

The first thing every printer buyer asks is *"what do I print?"* Clip-art and phone photos don't make a menu. A named, coded, chaptered catalog does: a customer picks **EN-BRIDE-03** at home, sends it to the salon, and it is waiting in the queue with a code and QR when she walks in. Bride tribes, quince courts, prom, teams, nurses, teachers, Spanish written as Spanish — not translated. The one salon we found with a printed-art menu lists \$75–115 a set; the Naples session model runs \$25 a hand. Either way the menu is the product. We are the menu.

WHAT THE SALON GETS

PLAN	INCLUDES	PRICE
Library	All print tiles, the quick-reference book, chapter cards	\$29/mo
Salon	Library + kiosk app, phrase generator, directory listing, party links, try-on \$39 founding	\$59/mo \$499/yr
Multi-location	Salon plan for 3 locations	\$149/mo

No free trial — the tiles are the product. Cancel any time. Billing in USD via Stripe.

HOW IT WORKS

- 1 You get a code and a link:
readmynails.com/?ref=YOURCODE
- 2 A salon subscribes through it (the link remembers you for 30 days) and enters **FOUNDING** at checkout.
- 3 Your statement lands on the 1st of each month; payment follows by PayPal or wire.
